## Science and Engineering Practices

| Asking questions and defining problems   |
|--|
| Developing and using models  |
| Planning and carrying out investigations   |
| Analyzing and interpreting data  |
| Using mathematics and computational thinking   |
| Constructing explanations and designing solutions  |
| Engaging in argument from evidence   |
| Obtaining, evaluating, and communicating information   |
| Posters designed by the Mars Education Program at Arizona State University and available for free download duplication, and distribution. Taxt adapted from the Mars Education Science Standards in accordance to the Public Line - O. C. and the Standards in accordance to the Pub |
