## INTRODUCTION

(An introduction to your project and its purpose)

**Purpose:** Introduce your project and your science question.

1. What is your science question?
2. Why is it important?
3. Why is it interesting?
4. List all hypotheses you had for your science question and explain why you think this to be true?

- Always relate to your question
- Use specific and clear words
- Avoid vagaries
- Bullet points (main ideas on slide)
- Details in speaker notes

### REFERENCES

List what books, websites, people, and equipment you used for your research using APA or MLA style. Use an online citation generator to ensure the reference is correctly formatted. Include credits for any images that have been used to be placed in small print below the image.
